1. The following is an examiner's statement of reasons for allowance: applicants' arguments, especially considered with the clarifying amendments of 2/2/04, were convincing as to the differentiation of the claims as presently written.

Copending cases to overlapping inventors that are of interest for claiming annular groove or slit structures that appear relevant to the present invention include USPN 6,346,915 B1 and 10/207,183, however these cases have significantly different antenna structures, as well as lacking required dimensions of the present case.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
